Hand and obstacle markers

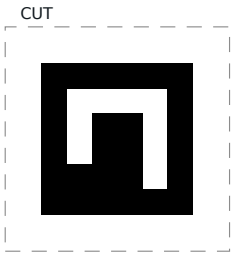
A4 | Actual size / 100% | Turn off Fit to page

OpenCV ArUco DICT_4X4_50. Print in black and white, single sided.

Cut on the dashed lines. Keep the white borders. Mount each marker flat.

ID 10 - Hand

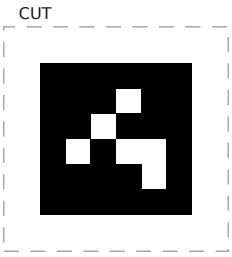
CUT



Black square: 20 x 20 mm

ID 14 - Obstacle A

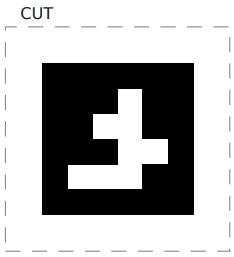
CUT



Black square: 20 x 20 mm

ID 15 - Passage B

CUT



Black square: 20 x 20 mm

ID 10: hand. ID 14: one obstacle. IDs 14 + 15: two-object passage.

ID 10: fix flat on the hand; measure its offset to the touching fingertip.

IDs 14/15: fix on top of each obstacle. Keep every marker visible.

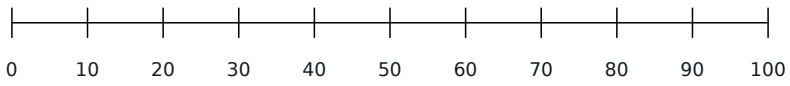
Measure obstacle width, depth and height, and marker heights above the table.

Use real blocking objects; leave enough room for the plate and hand to pass.

ID 12 remains RESET. ID 13 remains the stove-position reference.

IDs 14/15 measure obstacle placement in the video; they are not reset flags.

Print check: this line must measure exactly 100 mm



Measure the printed black squares and check line with a physical ruler.

Use only one copy of each ID in view. Keep the original plate and table markers.
